Application number : 09/973,831

Filing date : 10/11/2001

Applicant : Hanna Albert Awad

Title : gold, platinum , palladium, silver and all precious metals and precious elements made from other elements , by splitting

Please accept the reviewed claims asked by you.

About supplying you with the energies of bombarded particles in order to make fission and result in the production of precious elements.

If I know these energies, I would be able to make a nuclear bomb.

If I can make the experimentation of this invention, I would be able to make a nuclear bomb.

By logic if a nuclear bomb works this invention must work and any other details that you are asking to submit is impossible.
